Paul Pryor Named IT Director

Paul Pryor has been named IT Director for the City of Valparaiso, announced Mayor Matt Murphy. Pryor replaces Ron Ziolkowski who has retired after 25 years of service for the City of Valparaiso. "We thank Ron Ziolkowski for his years of service and welcome Paul Pryor. Paul has broad knowledge of the technology needed to serve our departments and community. We are pleased to have his expertise on board," said Mayor Matt Murphy.

Pryor has more than 20 years of experience in corporate information technologies and a record of outstanding achievements. He served as a field system engineer for Chester Inc. for nearly 20 years and also has experience managing IT for corporate and healthcare applications. He has studied Information Technology at Purdue University.
